Antique Dealer Objects to Taking Out a Second Hand License.

In police court this morning Joseph Kaprowitz and Dominick Myski, 5 Windsor street, charged with having assaulted and robbed Martin Mason. Mason swore that he went to Kaprowitz's room where he had a case of whisky. When he wanted to leave Kaprowitz struck him over the head, and he fell to the floor. Then they proceeded to rob him of \$25 which he had in his pockets.

Kaprowitz, who sported a badly cut face, stated that Mason called at the house to write a letter for him (Kaprowitz). After a few drinks, Mason said, "I don't want to see you here." Then he hit me on the chest," said the defendant. "And I struck him back. Then we went to the floor, and he scratched my face with his finger-nails. Then we fell to fighting, and came back to the street. He said he had a second hand license, and said he lost some money. Dominick never touched him."

Myski also said that he never had boasted of his strength, then struck and struggled with Kaprowitz. "When he came back, he just said he had lost some money while writing."

There is no evidence that there was any theft, or assault either, said the court, ordering the two prisoners to be released.

"I got out the country before I'd do it," said the defendant. "I was out of the country before I'd do it."

"I don't have a license, and I don't want to get one," said the defendant. "I don't have a license, and I don't want to get one."

before purchasing a baking powder that may possibly contain injurious ingredients. Many food scientists claim that baking powder containing alum is unsafe for use in food. The mere fact that some brands of baking powder have the words "No Alum" on the label is not sufficient proof that they are what they are represented to be. Our chemists find a good many have "No Alum" on the label but large quantities of it inside.

## Amendment to the General Act Passed.

New Tariff Before the Commissioners.

Hamilton's delegation, in Toronto, to-day, had decidedly better fortune than the one which worked upon the Private Bills Committee yesterday. That committee by a vote of 15 to 16 defeated the city's bill to authorize the taking of a vote of the ratepayers on the gas by-law at any time the council is ready to submit it, ruling that the vote could be taken only at the municipal elections in January.

To-day the Municipal Committee met and Mr. Geo. Halcrow, M.P.P., for East Hamilton, brought in an amendment to the general act to provide that municipalities may take such votes at any time. A delegation from the city council backed up the proposal and the committee endorsed it. "This will give the city authority to submit the by-law as soon as all the ratepayers are notified of the taking of the vote, and at a time when the question at issue will not be mixed up with municipal politics."

Philip Brown, 18 Clinton street, pleaded guilty for riding on a car on the wrong side of the street. A fine of \$25 was imposed on Adam Smith, who was accused of riding on the wrong side of the street. Campbell stated that while driving his auto at the corner of East Avenue and Cannon street, his car was stopped by Matty's car. Matty's car then turned south, and drove away at a rapid rate. Matty pleaded that it did not belong to him, and that he should return and give evidence, and did so. Matty's car was then turned south, and drove away at a rapid rate. Matty pleaded that it did not belong to him, and that he should return and give evidence, and did so.

As Don Halcrow did not wish to plead the charge, James J. P. C. Halcrow, C. H. Halcrow, and John Gorkah, all arraigned on charges of eating disorders, were taken to the police station.

## Mulnquest is Latest Arrival at Local Camp--Carlin is Going Good

### John Sure of Getting Regular Berth With Shagmen--Shag Well Pleased With Squad

Manager Shaughnessy's chief worry right now is whether he will get "Conny" Dolan to play first base this summer. Yesterday he was worrying about Mulnquest and Dolan, but the former arrived this morning and it appears certain for anything but a long stay. Dolan is a regular in the line as Charlie Donnelly who was the official base buster for the Hams last summer and has been a real speed merchant on the paths. This afternoon he will don a uniform and against the Johnnies at second base. Dolan being moved to shortstop, Carlin has been going great guns at second base and if he can show the same speed at short he will be safe to predict that he will be one of the Shagmen regulars for 1920. Carlin is going better than ever before, not only in the field but with the stick and promises to be one of the bright lights this year.

The unpleasant weather yesterday did not prevent the Shagmen from getting in a good workout and the "railbirds" who braved the showers saw the outfit loose up for the first time. Today, on this base, is going good and it looks as if the Shagmen will be in position to turn out. Lapp is the same Lapp as of old. He whipped the ball around yesterday and yesterday and "Shag" appeared to be well pleased with his work. Conny also went well. He was sent in to workout at short and made steps that mean the "railbirds" sit up and take notice.

If fine weather prevails on Saturday the fans will have an opportunity of seeing the Shagmen. In action against the Pittsburgh Colored Stars, "Shag" intends to use every man on the roster. On Wednesday of next week, they journey to Bradford for the first of home and home games and chances are that the exhibition game will be played the following Saturday at the University of Niagara campus.

Bradford, April 28.—When Pitcher "Tom" Bettevic went to the box today to send long transmitters to the outfield, the crowd was on its feet. The crowd was on its feet. The crowd was on its feet.

An exhibition game against Kitchener may be played on Saturday.

## Johnny Russell to Sign With Henry Woods

## Sporting Comment

Urban Shooker is a great gun for St. Louis at the present time and he has Frank Shaughnessy to thank more than anyone else for his berth. When Shooker reported to the Ottawa Club in the old Canadian League he was a catcher and not a very good one at that. After watching his actions the lanky pilot decided to make a pitcher of him and started him in league games when Urban had nothing but a big outcurve and good control. "Shag" then urged him to try the splitter and Shooker made such a success of it that he was not long until he was the leading pitcher in the league. Shooker shut out Detroit yesterday, letting the Tigers down with four hits.

The East End War Veterans have jumped into the fight game and have mapped out a programme for the summer that assures local fans of seeing the best bantams in the country in action here. At the present time they are after Jimmy Wilde and their chances of getting him are rather bright. They have just about signed articles for Eber and Tremaine to appear here at an early date and a club representative will see Jack Sharkey in Buffalo on Saturday night and try to get him to come here and meet Bobby Eber.

Antwerp, April 29.—Canadian cyclists who compete in the 108-mile road race to be held here on August 12 in connection with the Olympic bicycle events, will find the course comparatively level and suitable for fast riding.

The course, which is to measure 170 kilometers, is roughly star-shaped with the starting point at Mersin, to the north of Antwerp. After a number of small villages in the direction of the Dutch frontier, the cyclists will arrive at the first control station which is Eschen, a frontier village on the principal Holland-Belgium railroad.

From Eschen they will double back south on another road, and moving eastward and passing through countless small villages, will complete the race at the old Veldrom. There are two fixed control stations and four voluntary points of control for the races. At Moll, which is approximately the half way mark, there is a supply station.

The General Fireproofing Co., of Youngstown, Ohio, are after "Red" Cumpson and Harvey Muir.

## Major League Pitchers Forced to Work Harder Under New Baseball Rules

### Abolition of Freak Deliveries Has Brought About Desired Freer Hitting

New York, April 28.—When the change was made in the rules which govern pitching in baseball, the departure from previous regulation was more radical than any which had been adopted since 1882. Naturally, there has been a great deal of interest, mingled with the usual curiosity, as to whether the rule changes have accomplished anything that they would not.

It appears that they have. There may be some who will think it a little too early to judge, arguing that they will improve as the game develops. Very likely they will improve, but the batting has been so much freer and the long distance home runs have been so much more numerous in the games which have been played, including those of April 25, that experienced baseball men have an idea the rule changes have given the batters an advantage over the pitchers.

During the season of 1919, when "freak" pitching was allowed to run riot, the pitchers even became so arrogant that they would not let the knickerbockers of their uniforms to be put in the laundry—that is, to be washed. The knickerbockers of their uniforms to be put in the laundry—that is, to be washed.

The rule changes have given the batters an advantage over the pitchers. They are the pitcher, catcher, first baseman and second baseman. They are the pitcher, catcher, first baseman and second baseman.
